

Call Abandonment Scenarios in the Benefits Menu

1. Caller leaves on “veteran benefits voicemail transfer” queue
2. Caller leaves at “Prompt: IVR-BenefitsMenu”
3. Caller leaves on “Benefits or Benefits SP - SSA” queue
4. Caller leaves on “Benefits or Benefits SP - DHS” queue
5. Caller leaves on “Benefits or Benefits SP - Other” queue

Abandonment Rate in the Benefits Menu

Share of All Benefits-Path Calls Abandoned IN Benefits

- Abandonment rate in the benefits menu is ~6.51%

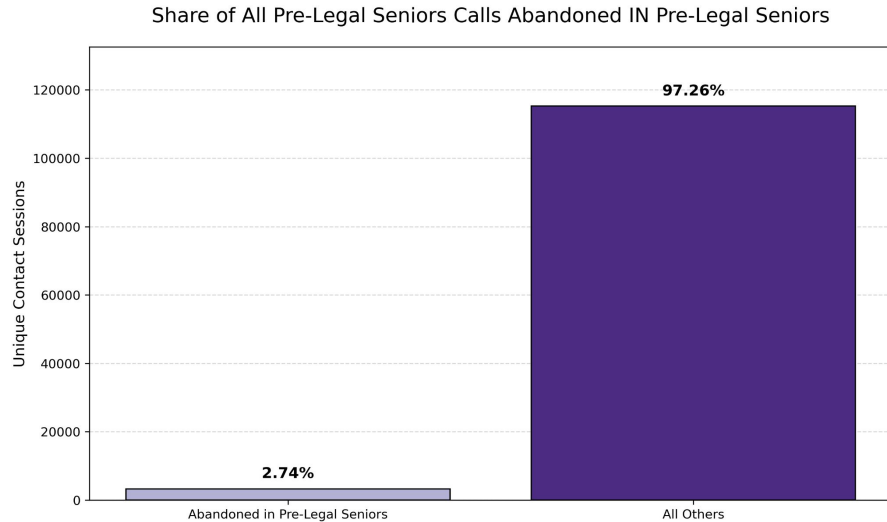

Takeaway: Abandonment rate in the benefits menu overall is above our 5% threshold, however we saw last week that since March abandonment has been about 4.16%, indicating improvement

Call Abandonment Scenarios in the Seniors Menu

1. Caller leaves on “SeniorsMenu”
2. Caller leaves at “SeniorsADAPTMenu”
3. Caller leaves on “SuburbanSeniorsMenu”
4. Caller leaves on “SeniorsConfirmationMenu”
5. Caller leaves on “OtherLegalOtherMenu”
6. Caller disconnects the call, “DisconnectContact1”

In certain situations some of these may not be considered an abandonment, but to be on the safe side in calculating abandonment rate, they will be included in my analysis

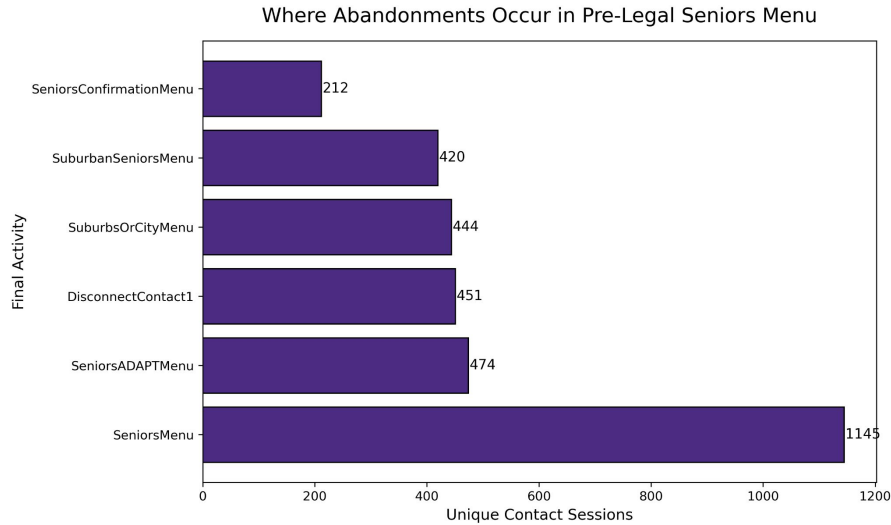

Abandonment Rate in the Pre-Legal Seniors Menu

- Abandonment rate in the Pre-Legal Seniors menu is only ~2.74%

Takeaway: Abandonment rate in the Pre-Legal Seniors menu is not only below the 5% threshold, but on the lower end as compared to the other menus at Chicago Legal Aid. This is likely because seniors may have more time and therefore patience while on calls

Where Abandonments Occur in Pre-Legal Seniors Menu

- Most abandonments in the pre-legal seniors menu occur in the initial seniors menu prompt (~36%)

Takeaway: Callers are asked to confirm that they are a senior here, so many of these “abandonments” may come from people who realize that they do not meet this eligibility requirement.
