

Process & Rules

Full Team

- All of us ran Krish's python import code on all CAR data files
- We all have 248,442 unique contact session ids in this full file
- From there, we each chose menus to analyze:
 - Meera: Family, Legal, Other Legal
 - Sana: Housing, Main
 - Marcos: Benefits, Pre-legal Seniors
 - Adam: Employment, HIV, Immigration

Individual

- We defined a Family/Legal/etc. Menu call as any call that passed through that menu at some point in the call.
- If a call did not end in our menu because it ended in another menu, we did not further analyze its abandonment, since the group member analyzing that menu will cover that.

Queue Messages

Pre-Queue 1 - Not Abandonment

Thank you for your patience. When your call is answered or returned, our intake staff will ask you a series of questions to check your eligibility for our services. Our service area is Cook County, Illinois, and statewide for immigration, human trafficking, and migrant legal services. **If you do not live in or have a legal issue here, we cannot help you.** You can find the legal aid program closest to you on the internet at **LSC.gov**. If you have documents relating to your legal issue, please have them ready for your call. If you are calling for someone else and do not have legal authority, such as guardianship or power of attorney, **we cannot speak with you.** Please have them call us directly. Your call may be monitored for quality and training purposes.

Queue Menu1 & Pre-Queue 2 - Abandonment

Wait times can be several hours. For this reason, **we encourage you to leave a call back number to hold your place in queue.** All calls are returned on the day they are received. To request a call back, press 1. **Otherwise, please remain on the line** for the next available team member.
