Full Team

- All of us ran Krish's python import code on the 28 files of CAR data spanning from March 16, 2025 onwards
- We all have 90,940 unique contact session ids in this full file
- From there, we each chose one menu to analyze:
 - Meera: Family
 - Sana: Housing
 - Marcos: Benefits
 - Adam: Employment

Me

- I defined the Family Menu calls as all the calls that passed through the Family Menu at some point in the call.
- I had 9,743 unique contact session ids
- If a call did not end in the family menu because it ended in another menu, I did not further analyze its abandonment, since the group member analyzing that menu will cover that.

Queue Messages

Pre-Queue 1 - Not Abandonment

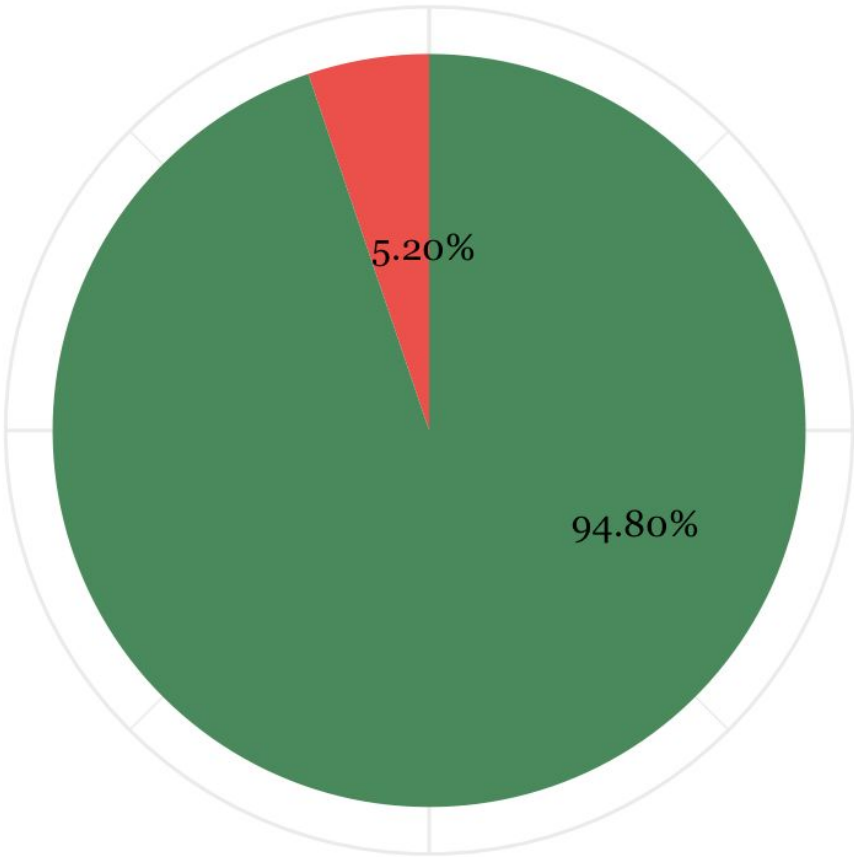

Thank you for your patience. When your call is answered or returned, our intake staff will ask you a series of questions to check your eligibility for our services. Our service area is Cook County, Illinois, and statewide for immigration, human trafficking, and migrant legal services. **If you do not live in or have a legal issue here, we cannot help you.** You can find the legal aid program closest to you on the internet at **LSC.gov**. If you have documents relating to your legal issue, please have them ready for your call. If you are calling for someone else and do not have legal authority, such as guardianship or power of attorney, **we cannot speak with you.** Please have them call us directly. Your call may be monitored for quality and training purposes.

Queue Menu1 & Pre-Queue 2 - Abandonment

Wait times can be several hours. For this reason, **we encourage you to leave a call back number to hold your place in queue.** All calls are returned on the day they are received. To request a call back, press 1. **Otherwise, please remain on the line** for the next available team member.
