

STAT390: LegalAid Chicago

10th Dec 2025

Outline

- Call types and call outcomes
- Spring Quarter 2025 recommendation evaluation (*removing Pre-Legal Seniors Menu*)
- Family menu Chatbot (*Transfer to SafeHaven*) evaluation
- Suburban seniors: Call duration dashboard
- Call trends over time dashboard
- Front desk monitoring dashboard
- Call journey dashboard
- Main menu & 'Other Legal Menu' recommendation follow-up
- CDCH data dashboard
- Overall dashboard design
- Q&A & feedback

Call types and call outcomes

- **Call types and call outcomes**
- Spring Quarter 2025 recommendation evaluation (*removing Pre-Legal Seniors Menu*)
- Family menu Chatbot (*Transfer to SafeHaven*) evaluation
- Suburban seniors: Call duration dashboard
- Call trends over time dashboard
- Front desk monitoring dashboard
- Call journey dashboard
- Main menu & 'Other Legal Menu' recommendation follow-up
- CDCH data dashboard
- Overall dashboard design
- Q&A & feedback

Calls breakdown: By caller type

Call type	Call sub-type	Proportion	Total calls	Calls per weekday
Main menu	Main menu only	40%	98,357	266
Legal issue calls		44%	108,519	293
Legal issue calls breakdown	Non-seniors	32%	79,085	214
	Chicago seniors	7%	17,975	49
	Suburban seniors	3%	8,305	22
	Non-Cook seniors	1%	1,302	4
	Unclassified callers	1%	1,852	5
Other calls		17%	41,566	112
Other calls breakdown	Closed hours	9%	21,861	59
	Farmworker menu	4%	10,310	28
	Intake outdial	4%	9,395	25
Total		100%	248,442	668

Calls breakdown: By outcome

Outcome	Outcome type	Proportion	Total calls	Calls per weekday
Abandoned	Negative	30%	73,392	198
Closed queue	Negative	20%	49,933	134
Staff directory	Positive	13%	31,994	86
Voicemail	Positive	8%	20,664	56
Connected to agent	Positive	8%	18,991	51
Closed hours	Neutral	7%	18,573	50
LAC does not serve	Neutral	6%	16,393	44
Could not select language (Front desk 1)	Neutral	3%	7,890	21
Appt/feedback (Front desk 2)	Positive	3%	6,953	19
Legal menu 1 (Front desk), Front desk 3	Neutral	1%	3,086	8
SafeHaven / failed callback		0.2%	573	2
Total		100%	248,442	668

Outcomes based on call type

Call type	Call sub-type	Positive outcome		Neutral outcome		Negative outcome	
		Number	Proportion	Number	Proportion	Number	Proportion
Main menu	Main menu only	49,297	50%	8,430	9%	40,630	41%
Legal issue calls		17,097	16%	18,887	17%	72,535	67%
Legal issue calls breakdown	Non-seniors	10,441	13%	15,333	18%	53,311	67%
	Chicago seniors	3,053	17%	2,370	13%	12,552	70%
	Suburban seniors	3,536	43%	286	3%	4,483	54%

	Intake outdial	9,358	99.6%	0	0%	37	0.4%
Total							

Main menu only

Main menu: Negative outcomes

- All the 40,630 (41%) negative outcomes of calls navigating the main menu are due to abandonment
- Out of these 27,256 (or 2/3rd) calls *abandon at language selection*.
 - **Reduce abandonments:** Recommendation about having a line in multiple languages – Polish, Russian, Arabic. This will also help reduce front desk transfers at Legal Menu due to
- 13,009 calls *abandon while listening to the 10 main menu options*, which is most of the remaining 1/3rd of the main menu abandonments
 - **Reduce abandonments:** Remove key 6, put low-traffic selections (<10 calls per day) such as compliment/complaint and address fax hours under ‘HelpWithLegalorOtherReasonMenu’

Main menu: Positive and neutral outcomes

- *Neutral outcomes* include 7,890 *front desk transfers* at *no language selection* (FD1), and 540 front desk transfer and (FD3) at *no main menu option selection*
 - The recommendations on the previous slide about the additional languages, and reducing the main menu size may also help reduce calls to the front desk
- *Positive outcomes* include
 - 29,295 (60%) staff directory transfers
 - 12,922 (26%) clinic voicemails
 - 6,869 (14%) appointment / feedback

Legal issue calls

Legal issue calls: Negative outcomes

- Of the 72,535 negative outcomes:
 - 49,680 (or 2/3rd) are due to *closed queue*
 - 22,726 (or 1/3rd) are due to *abandonment*
 - 20,074 abandonments occurs while navigating the menus
 - 2,652 abandonments occur while waiting in queues
 - 129 failed courtesy callbacks

Legal issue calls: Neutral and Positive outcomes

- Of the 18,148 *neutral outcomes*:
 - LAC doesn't serve issues for 16,360
 - An interpreter (front desk) is need for 2,527 calls
- Of the 17,097 *positive outcomes*:
 - 56% connect the call to an agent
 - 44% navigate to a voicemail

Legal issue calls

Non-seniors

Non-senior legal issue calls: Negative outcomes

- Of the 53,311 negative outcomes:
 - 38,210 (or 70%) are due to closed queue
 - 15,028 (or 30%) are due to abandonment, of which 14,182 abandonments occurs while navigating the menus, 846 abandonments occur while waiting in queues
 - 73 failed courtesy callbacks

**73 failed courtesy callbacks in the menu are also negative outcomes*

Non-senior legal issue calls: Negative outcomes: Closed queues

- Of the 53,311 negative outcomes:
 - 38,210 (or 70%) are due to closed queue
 - 40% of the closed queues are in the Family menu, followed by 19% in the Housing menu, 16% in the Legal Menu, 10% in the Benefits menu, 8% in Employment, and 6% in Immigration menu
 - Employment menu has the highest proportion of calls going to closed queue at 82%, followed by benefits at 81%, Family at 73%, Immigration at 72%, Housing at 55%, and Legal Menu at 27%
- **Recommendation:** The strategy to expand the queue length / number of callbacks to serve more customers depends on the objective
 - If more clients need to be served regardless of the issue, queue length / number of scheduled callbacks of the family menu should be increased
 - If similar proportion of clients in all legal issues need to be served, then we should begin with expanding the Employment and Benefits menus queue length / number of callbacks

Non-senior legal issue calls: Negative outcomes: Abandoned calls

- Of the 53,311 negative outcomes:
 - 15,028 (or 30%) are due to abandonment, of which 14,182 abandonments occurs while navigating the menus, 846 abandonments occur while waiting in queues
 - 71% (or 10,701) of the abandonments occur in the legal menu as there are too many options
 - 10% of the abandonments occur in the housing menu,
 - 48% (or 715) occur at the Tenant menu, while 40% (or 587) occur at the Housing menu
 - Menus having high abandonment rate are HIV (49%), Immigration (16%), and Housing (12%)
 - For the remaining legal issue menus, the abandonment rate is below 8%
- **Recommendation:**
 - HIV should be removed from the Legal menu, and put within other menus
 - Less popular issues, such as Criminal Records, Consumer, and ADAPT should be put under OtherLegalMenu

Non-senior legal issue calls: Neutral and Positive outcomes

- Of the 15,333 *neutral outcomes*:
 - LAC doesn't serve issues for 13,059
 - An interpreter (front desk) is need for 2,274 calls
- Of the 10,441 *positive outcomes*:
 - 46% connect the call to an agent
 - Out of these, 37% connect in the Family menu, followed by 23% in Housing, 15% in Legal Menu, 11% in Benefits, 10% in Employment, and 3% in Immigration
 - 56% navigate to a voicemail

Legal issue calls

Chicago Seniors

Chicago seniors legal issue calls: Negative outcomes

- Of the 12,552 negative outcomes:
 - 8,804 (or 70%) are due to closed queue
 - 3,732 (or 30%) are due to abandonment, of which 3,494 abandonments occurs while navigating the menus, 238 abandonments occur while waiting in queues
 - 16 failed courtesy callbacks

**73 failed courtesy callbacks in the menu are also negative outcomes*

Chicago seniors legal issue calls: Neutral and Positive outcomes

- Of the 2,370 *neutral outcomes*:
 - LAC doesn't serve issues for 2,124
 - An interpreter (front desk) is need for 246 calls
- Of the 3,053 *positive outcomes*:
 - 41% connect the call to an agent
 - Out of these, 30% connect in the Housing menu, followed by 20% in Legal Menu, 19% in Benefits, 14% in ADAPT, 12% in Family, and 4% in Employment
 - 59% navigate to a voicemail
- **Recommendation:**
 - The Seniors ADAPT menu isn't popular among Chicago Seniors as well, and should be put under OtherLegalMenu

Legal issue calls

Suburban Seniors

Suburban seniors legal issue calls: Negative outcomes

- Of the 4,483 negative outcomes:
 - 2,438 (or 55%) are due to closed queue
 - 2,006 (or 45%) are due to abandonment, of which 1,564 abandonments occurs while navigating the menus, 442 abandonments occur while waiting in queues – relatively higher proportion abandon while waiting in queues (22% vs 4% on an average)
 - 39 failed courtesy callbacks
- **Recommendation:**
 - Encourage them to schedule callbacks, as relatively a large number of them abandon while waiting in queues

**73 failed courtesy callbacks in the menu are also negative outcomes*

Suburban seniors legal issue calls: Neutral and Positive outcomes

- Of the 286 *neutral outcomes*:
 - LAC doesn't serve issues for 286 (pre-tenant, other legal menu)
- Of the 3,536 *positive outcomes*:
 - 100% connect the call to an agent

Closed hours calls

Closed hours calls

- Of the 3,153 *positive outcomes*:
 - 2,075 are to English Staff Directory
 - 560 are to Spanish Staff Directory
 - 518 are to Address / Fax hours
- **Recommendation:**
 - Menu navigation should be allowed during closed hours so that callers can navigate to voicemails, if relevant to their needs, and determine the issues LAC doesn't serve
 - There is no need for callers to call during working hours, if their issue leads them to a voicemail, or to an issue not served by LAC

Spring Quarter 2025 recommendation evaluation *(removing Pre-Legal Seniors Menu)*

- Call types and call outcomes
- **Spring Quarter 2025 recommendation evaluation *(removing Pre-Legal Seniors Menu)***
- Family menu Chatbot (*Transfer to SafeHaven*) evaluation
- Suburban seniors: Call duration dashboard
- Call trends over time dashboard
- Front desk monitoring dashboard
- Call journey dashboard
- Main menu & 'Other Legal Menu' recommendation follow-up
- CDCH data dashboard
- Overall dashboard design
- Q&A & feedback

Spring Quarter 2025 recommendation evaluation *(removing Pre-Legal Seniors Menu)*

- Link to presentation to be added

Family menu Chatbot (Transfer to SafeHaven) evaluation

- Call types and call outcomes
- Spring Quarter 2025 recommendation evaluation (*removing Pre-Legal Seniors Menu*)
- **Family menu Chatbot (*Transfer to SafeHaven*) evaluation**
- Suburban seniors: Call duration dashboard
- Call trends over time dashboard
- Front desk monitoring dashboard
- Call journey dashboard
- Main menu & 'Other Legal Menu' recommendation follow-up
- CDCH data dashboard
- Overall dashboard design
- Q&A & feedback

Family menu Chatbot (Transfer to SafeHaven) evaluation

- [Presentation \(slides 8-13\)](#)

Recommendation:

- Family Menu Chatbot has little impact on reducing LegalMenu confusion
 - Redundancies / confusion come before visiting DivorceOrParenting submenu
 - For a chatbot to help reduce confusion, this would need to come predominantly after directly visiting submenu (ex: right after LegalMenu -> FamilyMenu)
 - Slightly improves ‘success’ rate for calls
 - Especially better for submenus with lower success rates (like Housing submenu)
- Alternative Chatbot Usage: OtherLegalMenu
 - Collect data on what issues fall under OtherLegalOtherMenu

Suburban seniors: Call duration dashboard

- Call types and call outcomes
- Spring Quarter 2025 recommendation evaluation (*removing Pre-Legal Seniors Menu*)
- Family menu Chatbot (*Transfer to SafeHaven*) evaluation
- **Suburban seniors: Call duration dashboard**
- Call trends over time dashboard
- Front desk monitoring dashboard
- Call journey dashboard
- Main menu & 'Other Legal Menu' recommendation follow-up
- CDCH data dashboard
- Overall dashboard design
- Q&A & feedback

Suburban seniors: Call duration dashboard

- [Presentation \(slides 1 - 8\)](#)
- [Dashboard link](#)

Insights:

- The dashboard shows hourly trends simultaneously with weekly trends for different call types
- The dashboard also drills down on call durations for suburban seniors, showing some variation based on the legal issue
- The weekly / hourly call behavior and the distinct Suburban seniors calling behavior can be used for strategic resource allocation

Call trends over time dashboard

- Call types and call outcomes
- Spring Quarter 2025 recommendation evaluation (*removing Pre-Legal Seniors Menu*)
- Family menu Chatbot (*Transfer to SafeHaven*) evaluation
- Suburban seniors: Call duration dashboard
- **Call trends over time dashboard**
- Front desk monitoring dashboard
- Call journey dashboard
- Main menu & 'Other Legal Menu' recommendation follow-up
- CDCH data dashboard
- Overall dashboard design
- Q&A & feedback

Call trends over time dashboard

- [Presentation \(slides 1 - 4\)](#)
- [Dashboard link](#)

Insights:

- The dashboard presents a concise and comprehensive set of all call trends over time
- Changing demands and call behavior over time, as reflected in the dashboard, can be used to plan appropriate staff allocation. Some examples of such changing trends are given in the presentation

Front desk monitoring dashboard

- Call types and call outcomes
- Spring Quarter 2025 recommendation evaluation (*removing Pre-Legal Seniors Menu*)
- Family menu Chatbot (*Transfer to SafeHaven*) evaluation
- Suburban seniors: Call duration dashboard
- Call trends over time dashboard
- **Front desk monitoring dashboard**
- Call journey dashboard
- Main menu & 'Other Legal Menu' recommendation follow-up
- CDCH data dashboard
- Overall dashboard design
- Q&A & feedback

Front desk monitoring dashboard

- [Presentation \(slides 1 - 9\)](#)
- [Dashboard link](#)

Insights:

- The dashboard can be used to monitor staff engagement at the front desk, and see any monthly, weekly, and hourly trends
- Allocation of staff at the front desk can be varied based on demand

Call journey dashboard

- Call types and call outcomes
- Spring Quarter 2025 recommendation evaluation (*removing Pre-Legal Seniors Menu*)
- Family menu Chatbot (*Transfer to SafeHaven*) evaluation
- Suburban seniors: Call duration dashboard
- Call trends over time dashboard
- Front desk monitoring dashboard
- **Call journey dashboard**
- Main menu & 'Other Legal Menu' recommendation follow-up
- CDCH data dashboard
- Overall dashboard design
- Q&A & feedback

Call journey dashboard

- [Presentation \(slides 10 - 14\)](#)
- [Dashboard link](#)

Insights:

- The dashboard can be used to visualize complete call journey for 99% of the calls, which comprise a of a maximum of 22 steps (*or drill downs in the dashboard*)
- The dashboard can be used to visualize traffic at various points in the menu, and compare the utility of different menu options

Overall dashboard design

- Call types and call outcomes
- Spring Quarter 2025 recommendation evaluation (*removing Pre-Legal Seniors Menu*)
- Family menu Chatbot (*Transfer to SafeHaven*) evaluation
- Suburban seniors: Call duration dashboard
- Call trends over time dashboard
- Front desk monitoring dashboard
- Call journey dashboard
- **Main menu & ‘Other Legal Menu’ recommendation follow-up**
- CDCH data dashboard
- Overall dashboard design
- Q&A & feedback

Family menu Chatbot (Transfer to SafeHaven) evaluation

- [Presentation \(slides 1-12, 14 - 24\)](#)

Insights:

- The presentation argues that option 1 of key 8 in the main menu should be removed
- The ‘Other Legal Menu’ verbiage has been reduced to simply the menu

CDCH dashboard

- Call types and call outcomes
- Spring Quarter 2025 recommendation evaluation (*removing Pre-Legal Seniors Menu*)
- Family menu Chatbot (*Transfer to SafeHaven*) evaluation
- Suburban seniors: Call duration dashboard
- Call trends over time dashboard
- Front desk monitoring dashboard
- Call journey dashboard
- Main menu & 'Other Legal Menu' recommendation follow-up
- **CDCH data dashboard**
- Overall dashboard design
- Q&A & feedback

CDCH dashboard

- [Presentation \(slides 5 - 9\)](#)
- [Dashboard link](#)

Insights:

- The dashboard presents a drill down of call journeys in CDCH data
- It can be used to see transfers taking place to different numbers within LegalAid
- There are 375 unique numbers found as intake lines

Overall dashboard design

- Call types and call outcomes
- Spring Quarter 2025 recommendation evaluation (*removing Pre-Legal Seniors Menu*)
- Family menu Chatbot (*Transfer to SafeHaven*) evaluation
- Suburban seniors: Call duration dashboard
- Call trends over time dashboard
- Front desk monitoring dashboard
- Call journey dashboard
- Main menu & 'Other Legal Menu' recommendation follow-up
- CDCH data dashboard
- **Overall dashboard design**
- Q&A & feedback

Overall dashboard design

- [Dashboard link](#)

Insights:

- This dashboard design will be used to combine all the dashboards into a single dashboard
- The data can be refreshed to update the dashboard

Q&A & feedback

- Call types and call outcomes
- Spring Quarter 2025 recommendation evaluation (*removing Pre-Legal Seniors Menu*)
- Family menu Chatbot (*Transfer to SafeHaven*) evaluation
- Suburban seniors: Call duration dashboard
- Call trends over time dashboard
- Front desk monitoring dashboard
- Call journey dashboard
- Main menu & 'Other Legal Menu' recommendation follow-up
- CDCH dashboard
- Overall dashboard design
- **Q&A & feedback**
